**Programming languages:** C/C++, html, css, javascript, R, Matlab

**Drawing Mediums:** Watercolor, Pencil, Acrylic, Ink.

## Education

B. Tech., Mathematics and Computer Science  
**IIT Guwahati.**

## Projects

- Bachelor Thesis on p-Groups, Solvable groups, and composition series, 2017,  
Dr. Anupam Saikia, IITG  
Explored field theory, Galois Theory, Solvable groups and surveyed the corresponding proofs for orbit Stabilizer theorems and Sylow's theorems. Explored field theory, Galois Theory, Solvable groups and surveyed the corresponding proofs for orbit Stabilizer theorems and Sylow's theorems.
- Illustration marathon, Oct 2018  
Did Illustration marathon at 91 Springboard Indiranagar, where I offered to make an illustration per day for a fixed price, the goal here was to introduce illustrations in other B2B companies.
- Portrait session, June 2018  
Offered to make a portrait of people who volunteered as a model, at the 91springboard, JP Nagar.
- Habitwave illustrations,  
Illustrations for this app. Illustrations to use as a badges. Made the illustrations around this idea that the value of a greeting card is in its craftsmanship regardless of the medium it's made in. Also branding was not based on color or shapes, "use only the illustrations that can also be reproduced in watercolor" which generated a unique visual consistency.

## Interests

**Books:** Grid Systems in Graphic design, Designing Brand identity, Gerrit Noordzij - Letterletter. The elements of typographic style, A \*new\* program in graphic design.

**Online course:** 6.813, User Interface Design and Implementation, from the MIT open Courseware.
